The two words that describe the impact that the MBA has had on my career are career acceleration. I wouldn't be the CEO of BridgeWorx without my MBA. I've always had the drive, determination and intelligence and now I have the confidence, knowledge and skills.

What has impressed me most about the university is the lecturers. They interact with you on a personal level and are so keen and enthusiastic about not just what they teach but also the lives and careers of those they teach."

Daniel Bridges, MBA
