

Declaration of conflict of interest

Declaration of conflict of interest

As part of a professional programme, you will have exposure to the public at their most vulnerable. It is essential that at the start of, and throughout your programme of study, you declare any potential conflict of interest or previous exposure to a client group or service you may have had/still have.

Examples:

- Previous exposure to health visiting teams when allocated to health visiting team
- Ongoing involvement with social work team as a service user

To minimise potential stress to students, ensure safety of service users, and uphold the values promoted by a joint statement from the Chief Executives of statutory regulators of health and care professionals, students are asked to complete the form below declaring any previous exposure to health and social care teams.

If you are unsure if there is information you need to add to this form please discuss this with your personal tutor. Should your circumstances change you should also discuss this with your personal tutor.

Section 1:

By signing this form you agree the following statements:

As a student of the University of Gloucestershire, I agree that;

- Any potential conflict of interest to working in healthcare are declared in **Section 2**
- Any previous exposure to local or national healthcare services that could impair my judgement or influence the judgement of those I am working with is declared in **Section 2**
- I will inform the University of Gloucestershire at the soonest possible time to any changes in my circumstances relating to my ability to work in the local healthcare community
- If I am unsure now or later in my programme of study if a situation could constitute a conflict of interest I will contact the University of Gloucestershire for advice as soon as possible

Section 2:

Please write below any previous exposure to health and social care settings that could be perceived as a conflict of interest during clinical practice:
